

## ORDERS OF THE TEXAS GOVERNOR

Are to Effect That all  
Revolutionists Must  
Leave the State

### TROOPERS ON THE MOVE

And Will Do Patrol Duty Along  
Mexican Border—Seized  
Ammunition.

Austin, Texas, Nov. 20.—"All revolutionists in the vicinity of Laredo must leave Texas within 48 hours," read the specific orders last night of Governor O. B. Colquitt of Texas to Adjutant General Hutchins, who is at Laredo to cope with the situation there.

Governor Colquitt has received a telegram from President Taft, stating that he has instructed Secretary of War Stimson to co-operate with the Texas governor in every way to stop the movement within this state. This telegram came in response to a message to the president from Gov. Colquitt, in which he stated that he had information to the effect that there were 500 revolutionists in the vicinity of Laredo, planning to divide into two attacking parties and begin the new Mexican revolution at Nuevo Laredo.

The governor notified the president that he did not intend to have a repetition of the incident at El Paso, where Texas citizens were killed by flying bullets from the Mexican battle at Juarez. He asked what was the president's pleasure and to this telegram the president replied that the secretary of war is to co-operate with the Texas governor.

A special agent of the Mexican government is to confer with the governor today.

### CAVALRY TROOPS SENT TO MEXICAN BORDER.

San Antonio, Tex., Nov. 20.—Because of the activity of alleged revolutionists along the Texas-Mexican border, especially in the vicinity of Laredo, Troop I, Third United States Cavalry, under Captain G. B. Conly, has been ordered to that point for patrol duty.

The troop is now at Leon Springs. It will march into San Antonio today and enroute at 2 o'clock this afternoon for Laredo. Other troops may follow.

General Bernardino Reyes, arrested upon an indictment charging conspiracy against a friendly nation, will appear before United States Commissioner Edwards and make another bond for his appearance at the next term of federal court. The general maintains his innocence of the charge and expresses confidence in the outcome. His son, Rodolfo Reyes, last night started for Laredo, to look after his father's interests there.

### GOVERNMENT SEIZES AMMUNITION AND ARMS

Laredo, Tex., Nov. 18.—Federal authorities Sunday seized a quantity of ammunition and arms said to be a part of a store provided by persons expecting to lead a revolt against the Madero government in Mexico. The officers were led to the cache by Juan Meriga, shortly after he was arrested as the result of a federal indictment returned at the same time as was one against General Bernardino Reyes.

Meriga was formerly a cavalry captain of Mexico and his arrest is the fifth in connection with the alleged revolutionary plot. General Reyes was arrested in San Antonio and three others said to be implicated were taken into custody here.

Meriga is said to have made a confession regarding the alleged revolutionary plot, said to have been led by General Reyes. The officials say Meriga told them he has been engaged in securing horses, arms, and ammunition, a considerable amount of which has already been sent into Mexico.

It is stated today by United States Marshal Brewster that other important developments are expected within the next few days. Adjutant General Hutchins arrived here Sunday from Austin and assumed command of the force of state rangers who are engaged in an investigation of the situation.

It is expected Antonio Magoon, who was arrested Saturday, will today make application in the federal court here for a writ of habeas corpus.

### THE GOVERNMENT IS WITHOUT FEAR

Mexico City, Nov. 20.—If any organized revolutionary movement is begun in the northern part of Mexico its leaders must expect to deal with 12,000 federal soldiers. For some days

the war department has been strengthening various posts in that part of the country, and today it was announced that more than one-third of the entire army is in the states bordering the northern frontier. The troops are under command of General Geronimo Trevino, with headquarters at Monterrey. General Trevino is popularly admitted to be a personal enemy of General Reyes.

In the states of Chihuahua and Durango the federal forces consist wholly of ex-revolutionists, now rurales. The regulars, in obedience to orders from Madero, have been moved into the adjoining states.

Statements made at the national palace indicate that the government yet believes no one will succeed in shaping the disaffected elements of the country into an organized army of rebels.

Yesterday the states of Durango and Yucatan furnished the only news of fresh points of insurrection. In each state two haciendas were reported raided, the work of bandits, the government declares.

### REYES' ARREST IS IN LINE WITH POLICY

Washington, Nov. 20.—The arrest of General Bernardino Reyes by United States authorities at San Antonio for violation of the neutrality laws is exactly in line with the policy of this government to stamp out revolutionary activities against Mexico in United States territory, according to Secretary of State Knox.

"The arrest of General Reyes was not requested by the Mexican government," said Secretary Knox. "The policy of this government has not changed one iota since the inauguration of Madero as president following the revolution he led. So far as the United States is concerned the situation last spring when Madero's agents were being arrested for violating the neutrality laws."

### TROOPS SENT TO PROTECT AMERICANS

Mexico City, Nov. 20.—Troops were sent to Napiim to protect 100 American employees of the American Smelting and Refining company, in the event of an expected strike of 300 Mexican workmen.

## STATE BALANCE IS MUCH LARGER

Columbus, O., Nov. 20.—State Treasurer Creamer sees in his annual statement of Nov. 15, which has just been issued, the improbability of the state's exchequer hitting the hard rocks Ohio is more than \$100,000 ahead of her balance last year.

The balance a year ago was \$3,663,167.33. This year the balance is \$3,768,116.37. Mr. Creamer says it will grow between now and Jan. 1. Increased taxes from corporations and the increased revenue following Rose county option elections are responsible in large part for the increase he says.

## GOV. HARMON'S THANKSGIVING PROCLAMATION

Columbus, O., Nov. 20.—Suggesting that the people of Ohio give practical remembrance to those whose lot is poverty and affliction, Governor Harmon today issued his Thanksgiving proclamation. Following is the document in full:

State of Ohio,  
Executive Department.  
PROCLAMATION.

As the year draws to its close the time comes again when we take stock of what it has brought to us. In our favored land we generally find abundant cause for a hearty thanksgiving which does no test our faith in the Divine goodness. And this year is no exception.

Thursday, November 30th is chosen for observance as a day of thanksgiving to God for what in His bounty we have received and for what in His mercy we have been spared.

By religious services in church and at the fireside, and by laying aside our usual occupations, let us, the people of Ohio, acknowledge our obligations to the Ruler of Nations.

And that our gratitude may be an acceptable offering, let us each, according to the blessing he has received, give practical remembrance to those whose lot is poverty and affliction.

JUDSON HARMON, Governor.

## THREE MURDERERS ELECTROCUTED AT SING SING PRISON

Offing, N. Y., Nov. 20.—Three murderers were led to the death chamber in Sing Sing prison today and put to death in the electric chair. They were Pedro Felato of Port Chester, Frank Schuerhorn of Millbrook and Bert L. Brown, of Rye. They went to the chair in that order, the execution being at 5:23 and lasted only 22 minutes. All three executions proceeded without incident or delay.

### MISSIONARIES KILLED

And Reports State That Hundreds  
of Foreigners Have Been  
Slain by Manchus

Peking, Nov. 20.—There was consternation in the foreign legations yesterday upon the receipt of a report from Hsianfu, capital of the province of Shensi, that the Manchus Saturday night massacred hundreds of foreigners in the city and environs.

Among the victims are the inmates of the Legrange mission Lotos territory south of Su Chwan.

The Legrange mission is conducted by English Baptist ministers, who with Scandinavians are the principal foreign inhabitants of this region.

It is now confidently stated by local diplomats that intervention by the powers is at hand.

The blame for the attack on the foreigners is placed entirely on the Manchus as the revolutionists have announced again and again that they will obey the orders of their commander, General Li Yuen-Heng not to molest foreigners on their property.

General Li Yuen-Heng, in response to the British consul's protest against the shelling of the concession at Hankow, has promised that the concession will not be endangered in the future. He has also apologized to the Japanese for firing torpedoes, and promised security to foreign shipping generally.

In a letter which General Li's emissaries are bearing to Yuan Shi Kai, the rebel commander, he says it is impossible to put any reliance in the Manchus government's promises, and he instances the whole sale execution of reformers. The government, he adds has continually denied the Chinese political power. He asks: "Can you bear with composure to see the lives and property of 400,000,000 Chinese wasted by a handful of Manchus? Are you not the most famous and the ablest Chinese? Do you forget that you were cashiered and narrowly escaped murder? That was evidence of the Manchus' injustice to the Chinese."

Li Yuen-Heng in his letter urges that the choice between republicanism and a constitutional majority be left to a future conference, but insists that Manchus must not take a part in such a conference. He says that Yuan Shi Kai is the Manchus' only hope, and predicts the Manchus' on the part of the Manchus even if Yuan Shi Kai succeeds in his present task. "Remember the proverb," he enjoins, "When the rabbits are caught, the hounds are cooked."

The foreign residents of the concessions at Hankow complain of the meager forces sent to defend them. Eleven gunboats are lying in the harbor, and small landing parties have been dispatched from them, but the total is insignificant, those available for emergency numbering about 500 men, who include 150 volunteers. The French residents have sent an appeal to the foreign office for better protection, and it is reported that (Continued on Page 7, Col. 1.)

## TRAFFIC TIED UP BY SNOW STORMS

Milwaukee, Nov. 20.—Dispatches from northern Wisconsin and upper Michigan tell of the abandoning of freight traffic by the various railroads because of the storm which started last Friday and which had blocked all of the roads with huge snowdrifts. The snowfall is the heaviest on record at this time of the year. Marvin Hightitt, Jr., a Northwestern Railway official and son of the president of that road, is weatherbound in his summer home near Watersmeet, Mich.

## THE HYDE CASE IS REOPENED

Kansas City, Nov. 20.—After several weeks spent in the selection of a jury for the second trial of Dr. Clark B. Hyde, convicted of the murder of Colonel Swope, the making of the opening of the opening statement in the case began in Judge Porterfield's court today. Senator James A. Reed, special prosecutor, outlined the case and was followed by Frank Walsh, chief counsel for Dr. Hyde. It was expected that no testimony would be offered today.

## RICHARD CROKER HERE TO LOOK AT RACE HORSES AND TO SPEND WINTER IN THE BALMY CLIMATE OF FLORIDA

New York Nov. 20.—Richard Croker, who arrived from Europe Friday, is looking hale and hearty, though he will be seventy years old Nov. 21. After visiting the horse show he will go to Lexington, Ky., to look over some stud farms and will then go to Florida for the winter. Mr. Croker was enthusiastic about the future of Ireland, declaring that he believed the country would have home rule probably within a year. All Ireland needed to develop her resources, he said, was enterprising men with money to invest.

## SECRETARY OF AGRICULTURE DELIVERED ADDRESS TODAY AT THE GOOD ROADS CONGRESS

(By Associated Press.)

Richmond, Nov. 20.—The first American Good Roads Congress is being held here today without its most distinguished delegate, President Taft. Late last night the president telephoned the management of the convention that the White House physicians had forbidden his coming because of a bad cold which he contracted on the last day of his western trip. The secretary of agriculture came as the president's personal representative. Three hundred delegates have settled down to the first day's work and one of the objects of the congress is to effect an organized road movement in all the states without the aid of the federal government.

Richmond, Va., Nov. 20.—Good roads as related to the cost of living was discussed by United States Secretary of Agriculture James Wilson, in an address here today before the Good Roads Congress. He declared the cost of living would be reduced when there was established a more intimate relation between the producer and the consumer. With the increase in the good road mileage, the parcels post, he said, would perfect the facilities for getting from the farm to the town.

"Relations between farmers and town folks can be established," he explained, "for the prompt transfer of daily or weekly, of much that the farmer produces and town people consume. At present, when the town dweller pays a dollar the farmer gets half or less. With parcels post the farmer would get more, the carrier would get his freight and the consumer would get his supplies promptly, fresh and good. Dairy products, fruits and vegetables are transported in this way in other countries, with great satisfaction to all concerned and with less unhealthy food, fewer plagues and less frequent stomach troubles."

The value of farm land and the extent and character of production thereon are influenced largely, the secretary pointed out, by the condition of the public roads. Many products, he said, cannot be transported for long distances over poor roads, so that farmers in such countries must raise crops that are not perishable. This works loss to both producer and consumer, to the farmer in that he must deliver his goods when the roads permit, to the latter in that he must pay higher prices than if good roads would permit the farmer to deliver his milk, fruit and vegetables with less wear and tear on horses and wagons and in less time.

"Giving farmer should, merely as a matter of self-interest," said the secretary, "be a strong advocate of road improvement and should give practical support to a movement looking to the betterment of present conditions."

Turning to what has been done in this direction by the department of agriculture, through its bureau of good roads, the secretary declared that as a result of object-lesson roads constructed by the bureau in various states, nearly 10,000 miles of good roads had been built. "Last year it was found, from a careful investigation made in connection with 28 short object-lesson roads, none of them more than a mile in length, that 730 miles of additional road had been completed and that an increase of \$1,500,000 had been expended in the work."

"These object-lesson roads," he continued, "are constructed under

great satisfaction to all concerned and with less unhealthy food, fewer plagues and less frequent stomach troubles."

In addition, our laboratories are working constantly on the problems of devising materials and combinations of materials for the (Continued on Page 4, Col. 3.)

## PRES TAFT HAS VERY BAD COLD

Washington, Nov. 20.—President Taft is suffering from a severe cold, which confined him to the White House Sunday. His condition, although not at all alarming, is such that his physician has ordered him to take care of himself.

The president contracted a bad cold shortly after his return from his trip through the country.

Against the advice of his physician, Major Dulaney, he filled an engagement at Frederick, Md., last week, where he addressed a big crowd. At that time he apologized for his hoarseness, which was not lessened by his efforts.

There were rumors that Mr. Taft was threatened with pneumonia, but these were emphatically denied at the White House.

"A bad cold and nothing more," was the way the report was disposed of.

## PRESIDENT OF SAN DOMINGO ASSASSINATED

Washington, Nov. 20.—General Ramon Caceres president of San Domingo, is reported to have been shot in the culmination of a revolutionary plot. Several of these intrigues have developed recently but heretofore they have been throttled before they became serious. As the constitution of San Domingo makes no provision for a vice president, it will be necessary for the republic to call a special session of congress to appoint a successor to Caceres. It is possible for congress to convene, to set a date for election and have a new president within two weeks.

## NO TIDINGS OF MISSING STEAMER

Detroit, Mich., Nov. 20.—No tidings have been received from the passenger steamer Minnie M., which left Saint Ste Marie for Grand Marais, Mich., Wednesday and is now 50 hours overdue at the latter port.

The storm has abated and many vessels which took shelter in the various harbors have proceeded to their destinations.

A dispatch from Port Huron says the Canadian steamer Turret Cape upbound light went ashore on Cove Island, Lake Huron, during a snowstorm.

### Falls Off Trestle; Killed.

Fort Smith, Ark., Nov. 20.—Calvin Tanner of Kansas City fell off the Missouri-Pacific trestle, just outside the city, yesterday and was killed. He is supposed to have become confused in the dark. His neck was broken.

## THREE KILLED IN COLLISION

Buffalo, N. Y., Nov. 20.—Three persons are reported to have been killed when a Pennsylvania passenger train, early this morning, crashed into a wrecking train which was engaged in removing the debris caused when two cattle trains collided near Dunkirk.

Harry Gardner, a member of the wrecking crew, is said to be among the dead. The wreckage is burning and at least two others are believed to be pinned under the wrecking train.

## PACKERS TO BE TRIED IN CHICAGO WEDNESDAY

Chicago, Nov. 20.—Judge George A. Carpenter of the United States district court today postponed until Wednesday the trial of John Ogden Armour and nine other packers who are charged with criminal violation of the Sherman anti-trust law. The postponement was cognizant of the action of Judge Kohlsaat in the United States circuit court, who, after quashing the writ of habeas corpus, decided to withhold the entry of the action until Wednesday. J. O. Armour was the only packer not included in the habeas corpus proceedings, and he might have been placed on trial, but Judge Carpenter refused to hear the case separately.

It is believed that the packers on

Wednesday will make an effort to be tried separately. This would, if granted, have the same effect as the appeal to the supreme court, so far as delay is concerned. After court convened, the roll of 150 veniremen was called and excuses and pleas for non-service were heard.

Washington, Nov. 20.—The supreme court of the United States today adjourned until Dec. 4, without the attorneys for the indicted Chicago packers making any attempt before that tribunal to stay the packers' trial. This means that no stay of the trial can now be procured from the supreme court as a body until Dec. 4. They may, however, appeal to Justice Day at Canton.

## MAY GRANT BEATTIE A REPRIEVE

Prisoner May Get Life  
Extension of 30 Days  
in Exchange for  
Confession

### IS THINKING IT OVER

Beattie Family Will Leave Richmond Shortly After the  
Electrocution.

Richmond, Va., Nov. 20.—Yesterday was the last Sunday Henry Clay Beattie will spend on earth, for on Friday next, between the hours of 6 a. m. and 6 p. m., at a time to be designated by Superintendent Wood of the state prison, Beattie will be electrocuted in explanation of the crime of murdering his wife, Louise Wellford Owen Beattie, on Midlothian turnpike, on the 18th of last July.

Superintendent Wood announced that no newspaper man would witness the electrocution. The prison authorities refuse to give out anything relative to the prisoner other than that his health is good and that he is holding up well under the strain. His visitors Sunday were his father and members of his family, and Rev. Benjamin Dennis, his spiritual adviser.

Beattie has a Bible, which was given him by a friend, and this he occasionally reads, intermingling it with light literature and the smoking of cigarettes. Dr. Dennis declined to discuss whether the condemned man had hinted at making a confession or had made any statement relative to the crime.

Without calling Beattie's name, two pastors referred to the crime yesterday. Dr. Russell Cecil stating that he had not and would not intercede in the interest of a respite for the murderer.

Dr. H. F. C. Machlachlan of the Seventh street Christian church, referred to the matter, merely stating that the Paul Beattie affidavits should be investigated.

Several reports were sent out last night stating that the older Beattie would dispose of his interests and leave Richmond, also that the body of the murderer would be buried elsewhere. Arrangements were made weeks ago for the body to be buried in the Beattie lot in one of the local cemeteries.

All details for the execution of the sentence are complete, and the last chapter in one of Virginia's most sensational crimes will be closed Friday when Beattie takes his seat in the death chair.

Henry Clay Beattie, Jr., sitting in the death cell in the penitentiary here, less than 10 feet from the electric chair in which he is to die next Friday, is debating with himself a problem about as strange, as tremendous as ever a man faced. It was this: "Would 30 additional days of life be worth while accepting in (Continued on Page 3, Col. 2.)

## AUTO DRIVER KILLED IN A BAD SMASH-UP

Savannah, Nov. 20.—One automobile driver was killed and another seriously hurt this forenoon in a smash-up over the grand pure case here. Joe Dawson, a Mormon driver was hurt, and McNay, a Case pilot, was killed.

## WILL INVESTIGATE COUNTY OFFICIALS

Greenville, O., Nov. 20.—An investigation of alleged illegal acts by public officials of Daike county will probably be commenced November 27, by the regular grand jury, according to Prosecuting Attorney John H. Maher today. Taxpayers have demanded an investigation of Prosecutor Maher, who says it will be commenced. Several frauds have said to have been practiced here and in other counties.

## SENTENCED TO PENITENTIARY

Columbus, O., Nov. 20.—Finley M. Minter, president of the Moxala Brick Company, was sentenced today to two years in the penitentiary as a result of his conviction on the charge of obtaining money under false pretenses from Joseph Wilds, a former member of the Minnesota state legislature. The case grew out of the sale of some stuff for the brick company.

ROBBER TIED THE AGENT AND LOOTED SAFE

Grand Rapids, Mich., Nov. 20.—The Adams Express company's depot office here was robbed about 9 o'clock last night of everything in the safe, a lone bandit holding up the route agent and making a successful get-away. The safe was rifled of several thousand dollars, the exact amount not being known at this time. A. D. Harrison, the route agent, had just come into the depot, and after securing a quantity of mail, entered the express room. He called for Messenger Paul Tower, who, he supposed, was on duty, but received no reply. He turned on the light and stood at a desk with his back to the safe and had commenced to open the mail when he suddenly heard some one behind say "Boost 'em up, and be quick about it." He turned and was facing a masked man and the muzzle of a big revolver. Harrison, with the muzzle of the gun in his back, was marched to a large truck filled with packages. "Now back up to that," said the robber, "and put your hands behind you." Harrison obeyed. With a piece of cord the bandit tied the expressman's hands behind him and to the tongue of the truck. With a threat to kill him if he moved or made a sound, the robber knelt before the open safe and filled his pockets with money, bills and valuables. He then came out of the office and, backing slowly away, he went out of the door, closed the padlock which held it tight, and escaped.

MORGAN WOMAN DEAD. Marietta, O., Nov. 20.—The funeral of Miss Elizabeth McCarthy, a former McConnellsville woman, will be held here Monday afternoon. She died in Williamstown, W. Va., at the age of 71 years.

SMALLPOX SCARE AT McCONNELLSVILLE

McConnelsville, O., Nov. 20.—With an epidemic of smallpox, which dread disease already has three persons here in its grip, threatening this city, churches here Sunday were closed, all other public gatherings cancelled and the public schools ordered closed this week. The smallpox patients are: Larry Seaman, 19; Helen Burton, 5; and the small son of John Smith. Seaman and the little Burton girl reside in the same house in which Joseph Seaman, who recently returned home from Cincinnati, suffering from smallpox, lived. Seaman went back to his work in Cincinnati Friday. The Seaman and Smith homes are under quarantine, as is a third home, that of Ray Russell and Roy Fleming, who have eruptions on their skin and are suspected of being sufferers from smallpox. The Smith boy attended school Friday, and his case developed yesterday. The other cases are older. An inspector from the state board of health is expected to arrive here today to investigate local conditions.

THE EASTERN STARS INSTALL OFFICERS

The Order of the Eastern Star held an enjoyable meeting in their hall Friday evening. In spite of the inclement weather a large number of the members were present. The newly elected officers for the coming year were installed. The installing officer, J. B. McGaughey, worthy grand patron of Columbus, was highly pleasing and made many friends while here. At the close of the meeting delicious refreshments were served and a social time enjoyed by all. The following officers were installed: W. P.—W. P. Narragan. W. M.—Anna Boush. A. M.—William Brainerd. Secretary—Susan Guthrie. Treasurer—Augusta Tabler. Conductress—Mary Bonds. Assist. Conductress—Mary Boush. Adah—Annie Howe. Ruth—Anna Lyon. Esther—Fern Volland. Martha—Elizabeth Carmel. Electa—Edith Armstrong. Warder—Jennie Shook. Sentinel—J. C. Boush. Chaplain—Alma Kent. Marshal—Ode Miller. Organist—Dora Bush.

MME. BONAPARTE DEAD. Washington, Nov. 20.—Mme. Jerome Napoleon Bonaparte, widow of a grandson of Jerome Bonaparte, brother of the first Napoleon and a granddaughter of Daniel Webster, died at her home Sunday after a long illness. Mme. Bonaparte was first stricken at her summer home in Par Harbor, Me., and was brought to this city in September, since which time she had gradually failed. She was 72 years old and was born in Boston.

KING OF DIAMONDS HE WAS. New York, Nov. 20.—In her suit for divorce, Mrs. Emma Hall described her husband, August H., as a walking Kimberly mine, adorning himself mostly with diamonds, valued at \$200,000.

HERRICK PLANS FINANCING BY GOVERNMENT

New Orleans, Nov. 20.—More than 2,500 bankers had registered last night for the opening here today of the American Bankers' Association. At least 1,000 additional delegates will arrive today. Monday will be devoted to committee meeting and the convention proper will not open until Tuesday morning. This evening the members of the executive council and officials of the association will be tendered a banquet by the local bankers. The women visitors will be entertained at a special reception and musicale. A bitter fight is expected to develop over a proposed amendment to the constitution of the association designed to prevent the future possibility of the organization being controlled by a few members. C. H. McNider, president of the First National bank, of Mason City, Ia., will offer an amendment providing that the chairman of the executive council and vice president of the association be ineligible to election to a higher office until one year had elapsed after the expiration of their terms of office. An important resolution will be submitted for consideration by Myron T. Herrick of Cleveland suggesting a plan for financing development under government supervision. Mr. Herrick favors the organization of a corporation to operate the government supervision, which will make long term loans to landowning farmers at a small rate of interest and possibly the adoption of an amortization plan which would enable the farmer to pay the loan through an addition of small sums annually to the interest rate.

NO AGREEMENT HAS BEEN REACHED BY THE GRANGERS

Columbus, Nov. 20.—Late last night members of the middle-of-the-road group of the National Grange were in conference at the Chittenden Hotel with the hope that an agreement could be reached as to the proper man to push forward for the national mastership. The election has been made a special order for tomorrow morning. The names of Richard Pattee, master of the New Hampshire grange, and X. P. Hull, Michigan master, were mentioned previously to the caucus. That Mr. Hull would not be acceptable to the insurgent group was freely asserted last night. Mr. Pattee, although not agreeable to all voting members, won many friends when, as chairman of the grievance committee, he conducted the hearings of the Hill-Kegley case Saturday. All sides considered him impartial. Insurgents renewed their avowal yesterday that they sought no office for any of their group—that they merely wanted a man not connected with the Jones-Bachelder organization.

Standpaters and those on the fence openly asserted that they did not favor going out of the National Grange for a master, a suggestion made by insurgents. With time out yesterday afternoon for the annual memorial exercises, held at A. I. U. temple, most of the day was given over to grange politics. In this the women joined. In the evening a reception was held at the Chittenden Hotel. The personal of the gathering, however, was unlike that of a few evenings before when a reception was held in the same room to honor Senator Obadiah Gardner of Maine. The memorial session was well attended. Chaplain C. F. Smith presided. Tributes were paid to dead members by Masters Healey, Wolcott, Black and Schaffer of Connecticut, Kennerly, Kansas and Wisconsin, also by Chairman of the Executive Committee, Geoffrey of New York. The closing address was made by National Master Bachelder of New Hampshire.

To aid in electioneering work, several patrons of the Jones-Bachelder group arrived in Columbus yesterday. Chief among insurgents who came to Columbus to aid their cause was J. W. Helme, deputy dairy and food commissioner of Michigan and former master of the grange of that state. Mr. Helme was expelled from the grange with George P. Hampton, who was reinstated Saturday by the action of the New York supreme court. The first thing on the program of this morning's session is a report on the Hill-Kegley trial. The entire body, acting as a grievance committee, will report to itself that, by a vote of 32 to 17, charges preferred against Master Kegley of Washington were not sustained. The vote on acquittal may vary from that on the case before the committee. While other groups were in session last night an annual conference of state grange executive committees, avowedly insurgent, was held. The session was given over to the preparation of a memorial embodying policies and resolutions which the insurgents will lay before the grange.

TONA VITA IS BRINGING BACK HEALTH TO MANY

Half sick, tired all the time, no energy or ambition, with your nerves on edge and your stomach out of order, how can you expect to get any happiness out of life when in such a miserable state? You can't and you won't until you find relief from the debilitated condition that is sapping your vitality and robbing you of your strength. Physicians know that half the population in the large cities of this country are today afflicted with nervous debility caused by the wear and tear of modern life. A preparation has been used by European physicians to combat this nervous condition with remarkable success. A similar preparation "Tona Vita" was introduced in this country a few months ago and is making a marvelous record here—"Tona Vita" is bringing back health and happiness to thousands of listless, debilitated men and women. You owe it to your family, you owe it to yourself to let this wonderful new tonic build you up. There is no other medicine like it on earth; one dose will convince anyone of this. If "Tona Vita" doesn't do more for you than all the other medicines you have ever taken if it doesn't make you happier and healthier and better in every way, what you pay for it will be returned to you by R. F. Collins. Lee's Rhubarb Laxative, the assistant remedy, is another great medicine. It is a splendid family laxative, containing the medicinal properties of rhubarb—nature's own laxative. It will not injure the most delicate constitution and should be used for children above everything else. It is pleasant to the taste. E. F. Collins has the agency for "Tona Vita" and Lee's Rhubarb Laxative.

FOSTER PREDICTS A DRY WINTER

The coming winter will be favorable for motoring, according to Weather Prophet Foster, who says: "It is reported that squirrels, ground squirrels, mice and other wild animals are storing an unusual amount of winter food. Many people believe this to be a sure sign that we are to have a long cold winter. I have never examined as to whether these theories have any real foundation and I do not condemn before examination. But a very cold March is the only indication I see that the theories may be good. My calculations do not show that the winter months will be more than usually severe. The long, cold winters usually bring much snow, and my calculations do not show an excess of snow. In fact the whole winter looks dry to me."

STOCK JUDGING TEAM TO REPRESENT STATE

Five Men Are Chosen After Months of Stringent Examination. (O. S. U. Lantern.) The judges in the contest for the stock judging team to represent Ohio state at the International Live Stock Exposition at Chicago next month, named their decision Monday night. Samuel R. Guard, Orville A. Jamison, Virgil A. Place, T. Edwin McLaughlin and Francis C. Marshall have been given places. A position in this team is considered the highest honor to be had in the agricultural college. Competition this year has been much keener than in the past, about twenty having tried for places. In trips to Xenia, Cedarville, Wooster and Mansfield the students have had a chance to examine some of the choicest herds in the state. The International Live Stock show at Chicago the first week of December will be the largest of its kind ever put on. The team will have an opportunity to compete with judging teams representing nearly every agricultural college in the country. Orville A. Jamison will be remembered as a Newark boy, having graduated from Newark High in the class of '07.

DENISON HAD AN EASY TIME WITH THE KENYON BOYS

Defeated Them by a Score of 23 to 6 Although Gambier Boys Managed to Score. Granville, O., Nov. 20.—On a very soggy field, Denison defeated Kenyon Saturday in a very one-sided game, 23 to 6. The game began with a rush. Captain Rupp of Denison kicked off to Anderson who fumbled and Ashley recovered. Phelps made a couple of yards and Rupp added five more through the line. Woods made it first down on a forward pass and Rupp tore through for touchdown after two minutes of play. Rupp punted out to Deeter, but missed the goal. Kenyon kicked off to Dunlap and Rupp punted to Tasman, who was downed in his tracks by Maslins. Kenyon fumbled on the first play and Denison got the ball. Rupp went through the line for 50 yards, and another touchdown, and then kicked the goal. The second quarter began with the ball on Denison's 30 yard line. Phelps tore off 65 yards around Axtell's end and the next two plays carried the ball over for a touchdown. Rupp kicked goal. Kenyon kicked off again and the Baptist rushed the ball down the field and Phelps went over for another touchdown but was called back for holding in the line. Axtell punted out of danger and the ball was in Denison's hands most of the half. In the second half Livingston took Rupp and some of the regular line men out of the game and the effect was noticeable. Kenyon kicked to Phelps, who returned it 65 yards. On the first play Deeter went around for a touchdown, a good 30 yards. Heinrichs kicked goal. Kenyon's offense seemed to pick up and they worked the forward pass for good gains frequently. They never came within dangerous distance of goal except in the fourth quarter when Axtell caught a forward pass and ran fifty yards for a touchdown. Lewis kicked goal. For the Gambier team Axtell was the shining light in pulling down forward passes and punting. His work in punting was far below his press notices, though his work on defense was good, Captain Rupp, as usual, could not be stopped on line plays, and punting every bit as far as the much touted Kenyon men. Deeter at quarter ran the team as smooth as a machine and tore off several long end runs. Phelps did some great ground gaining and was good in defense, when it was necessary. The line-up: Denison (23) Kenyon (6). Haskins. Heinrichs...L E...Axtell (C) Ashley-Woods. Pfeifer...L T...Lewis Hewins-Wood. Martin...L G...Cook Curtin...C...Langmede Forsythe. Watkins...R. G...Sprague Thompson...R. T...Anderson Wood-Morrow...R. E...Wonders Deeter...Q. B...Tasman Rupp, C. Cramer...L. H...Rohrbaugh Phelps...R. H...Wickham Dunlap...F. D...Bowls. Referees—Connors, Bates, Umpire—Van Voorhis, Denison. Head linesman—Reese, Denison. Touchdowns—Rupp, 3; Phelps, Deeter, Axtell. Goals from touchdown—Rupp, 2; Heinrichs, Lewis. Self-help is a good thing, but few men have to be taught to help themselves. No matter how old they may be, colleges still retain their faculties.

RIDS THE SYSTEM OF SCROFULA

Scrofula is a disease usually manifested in childhood, though some who are victims of the trouble reach manhood or womanhood before there is any manifestation of the trouble; but no matter at what age it shows, the disease germs are in the blood, and until they are removed there cannot be a healthy condition of the body. The ordinary symptoms of Scrofula are swollen glands about the neck, scalp diseases, skin affections, poor physical development, etc. S. S. S. has cured thousands of cases of Scrofula. It is the greatest of all blood purifiers, and by going down into the circulation and removing the germs and poisons, and enriching the blood by the creation of nutritive corpuscles, S. S. S. makes a permanent cure. S. S. S. is a purely vegetable remedy, made entirely of health-giving roots, herbs, and barks, and is perfectly safe for persons of any age, or those in delicate conditions of health. No one need fear to give S. S. S. to a child, following directions, and the health will bring to frail, delicate children will be a blessing to their parents. If you or your child have Scrofula, write for our book on the blood and ask for any medical advice. No charge for either. S. S. S. is sold at drug stores THE SWIFT SPECIFIC CO., Atlanta, Ga.

Having a long established reputation as a Specialist, during which time hundreds of Chronic Diseases of Men and Women have been successfully treated, you will find Dr. Weist fully capable of handling your affliction, no matter what it may be. CHRONIC TROUBLES. Kidneys, Bright's Disease, Stomach, Liver, Bowels, Rheumatism, Eczema, Rickets, Piles, Hay Fever, Gonorrhea, Bronchitis, Asthma, Catarrh, and all affections of whatever nature are daily being treated by Dr. Weist with success. He has a remarkable knowledge of the causes of all kinds of Chronic Diseases of the eye carefully treated and places fitted. NERVOUSNESS. Without question the most difficult condition to successfully treat is that known to the medical profession as Nervousness. It is a result of many things, but when such cases are once fully developed, it is dangerous to allow them to go on without treatment. Opium, Chloral, Morphine and Cocaine are often employed to allay nervous conditions. These deadly drugs are simply stimulants that have no curative effect. It requires great skill to combat diseased Nerves. Dr. Weist has several remedies that have proved a boon to such sufferers. When the Nervous system is a person is unfit for anything. If your nerves are afflicted, better consult a specialist without delay. DISEASES OF WOMEN. Diseases peculiar to Women weaken the body and mind. If neglected they ruin your vitality and your life becomes miserable and unhappy. The correct treatment has been found. It is a treatise to suffer with it is at hand. How many hundreds of Women engaged in toiled agony? One meets them on every hand, who have been rendered almost insane by the terrible agony which could easily have been corrected in the beginning, but now aggravated to such an extent that their bodies are deranged. It is high time to consult a Physician who really understands your case. You have suffered long enough. No matter what Doctor has treated your case as hopeless, you need not despair. Dr. Weist has special remedies that have been successfully used in every case of Leucorrhoea, Prolapsed Uterus, Displacement, Ovarian Troubles and various other diseases. You can take this treatment at home in privacy. No humiliating examinations necessary. No operation. No hospital treatment. Simply eat, drink and sleep, and the method of treatment that gives results. It does not matter what ails you, how long your case is or how low you have suffered. Consult Dr. Weist. His opinion will be worth great deal to you. DISEASES OF MEN. Cases of long standing, especially detestable. Wrong treatment and incorrect diagnosis have often resulted in the most difficult cases. A specialist who has made a lifetime study of such diseases is certainly prepared to give you better results than any other Physician. Dr. Weist has an established practice and treats a large number of people. He spends no effort in his practice to cure you. His charges are very reasonable and if he thinks he cannot help you he will frankly and truthfully tell you so. CONSULT DR. WEIST. It matters not what ails you. PASSENGERS MAROONED ON ROOF OF TRAIN IN MIRE

Duluth, Minn., Nov. 20.—Lacking water and food more than a hundred passengers among them several women, are marooned on the roofs of a Soo line passenger train which settled seven feet in a quagmire 21 miles east of Moose Lake. They are in a serious plight, swept by a northwest gale which promises a snowfall that may descend on them before a rescue party can reach them. The train was due at Moose Lake shortly before noon Saturday. The roadbed of the line is built over miles of swamps after years of filling. When the train reached that place its weight caused the track to settle until the engine driver had come to a stop. With the weight of the train stationary, it quickly settled until the passengers had to take refuge on the roofs of the cars.

## BAD COLDS AND GRIPPE VANISH IN A FEW HOURS

The most effective and harmless way to cure the Grippe or break a severe cold, either in the head, chest, back, stomach or limbs, is a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

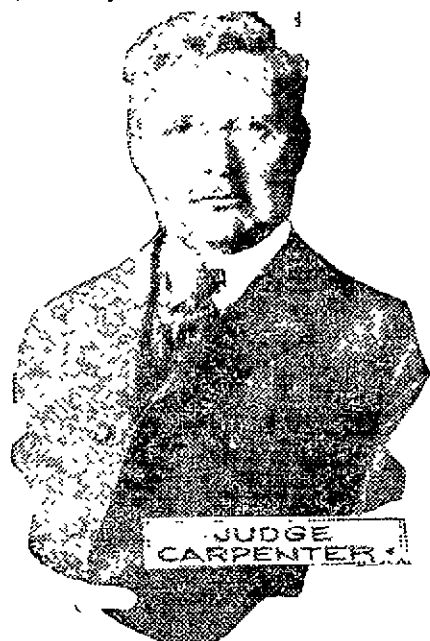

You will distinctly feel the cold breaking and all grippe symptoms going after the very first dose. It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, soreness, stiffness and rheumatic aching.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

After three years' research we have conclusively demonstrated that quinine is not effective in the treatment of colds or grippe.

## JUDGE CARPENTER WILL PRESIDE AT TRIAL OF PACKERS

Chicago, Nov. 20.—Judge George A. Carpenter will preside at the trial of the beet packers charged with con-

## BEATTIE

(Continued from Page 1.)  
exchange for a confession of guilt? Would one more month of breath be a sufficient recompense for a final and eternal blackening of his name by himself?

Governor Mann, it has developed, approached by all sorts of influences to grant the rich young wife slayer a short reprieve, made this grim proposal:

"If Beattie will make a full and free confession he can live until Dec. 24, Christmas Eve. If he does not, he shall be electrocuted at the time fixed. Let him decide for himself."

It is understood that his lawyers informed him of the proposal Saturday and that he said in reply: "Give me time to think. Give me time. I would like to live 30 days longer. God knows what might happen in 30 days. I cannot decide now. It is too great a question."

And so, contrary to his usual custom of reading light novels, he spent this Sunday pacing up and down his cell or sitting on his cot with his head buried in his arms, wrestling with his problem.

Naturally the boy wants life. He wants every minute he can have. He has many times exclaimed passionately: "Oh, God, if they would only give me a few more weeks."

The amazing nerve that kept him up through his trying ordeal has undoubtedly begun to break. Within the past few days he has at intervals gone into fits of violent weeping, followed by outbursts of rage in which he would rant and swear. Those who have been closest to him—apart from his relatives and lawyers—say they believe he would do anything for an added month of life. They rather expect that he will make the confession.

This, however, is what Henry will have to consider. He says: "God knows what might happen in 30 days."

But if he makes the confession and gets the 30 days, nothing possibly can happen to save him, because the confession will automatically remove any possible doubt that Governor Mann might have of his guilt—and the governor is convinced of it already.

Beattie may figure that it would be foolish, for that reason, to admit his guilt. On the other hand, he may consider that he might as well tell the truth, make the jurors who convicted him feel more comfortable and take what sweetness there may be in a month of life.

His asked father saw him yesterday. When asked afterward what he expected Henry would do, the elder Beattie merely said: "If my son makes any statement to the public before the end, it will be greatly against my wishes and advice."

It has been said that the old man told his intimates he hoped Henry would not be reprieved, as long as he had to die within a short time anyway. Mr. Beattie Sr. is anxious to take his daughter Hazel and his other son Douglas and forever leave the state where Henry disgraced the respected name he bore.

There is universal sympathy for the gray-haired father, but none whatever for the boy. The Beatties are going to Washington as soon as they can obtain the body after the electrocution. They will have it cremated and probably will make their home in a suburb of the capital.

Another effort will be made in the

boy's behalf today, when a body of men and women opposed to capital punishment will call on the governor under the leadership of Rev. Russell Cecil. They will task that the sentence be commuted to life imprisonment, not on any question of guilt or innocence, but merely to "set a good example," as they put it, "against the barbarous custom of taking a life for a life."

It is not likely, however, that Governor Mann will take any action on it.

Rev. Mr. Cecil and Rev. Benjamin Dennis, both Presbyterians, visit young Beattie in his cell on alternate days. Neither will discuss the affair but each said: "Henry expects to go to heaven. He has made that remark several times and has made his peace with God."

Persons in the penitentiary, however, have said: "He seems to spend a good bit more time with his novels than he does with his Bible."

The boy's chief complaint is that he is lonely in murderers' row. There is no other condemned prisoner in the jail just now and consequently he has no one to talk to except the keepers who sit watching him day and night. A man is always stationed in front of his door. He has not even the consolation of his guitar. That was taken away lest he do himself harm with its wire strings. The main question of the day is: "Will he tell?"

Though he is in a receptive frame of mind, spiritual advisers to Henry Beattie Jr. believe his soul will be lost unless Governor Mann grants him a respite for at least 30 days. While they are not taking for publication, Rev. J. J. Fix and Rev. Benjamin Davis, who are looking after Beattie's spiritual welfare, are known to have expressed themselves to this effect within the last day or two in talking with intimate friends of the Beattie family.

Beattie reads his Bible daily and is ever ready to converse with the reverend men who visit him in his cell. So far, however, it is said that he has not been able to see the "light," though his day of reckoning is less than a week distant. It is true that he professed faith as a youth and his name is still recorded as a member of Porter street Presbyterian church, South Richmond. In recent years, however, he has backslided to such a degree that he now freely confesses that the faith is no longer his.

Ministers in South Richmond, including the two spiritual advisers, are practically a unit in their belief that Beattie should be allowed more time in which to prepare for his Maker, and it is declared that they will unite in a petition to Governor Mann with that end in view. On the other hand, Richmond ministers seem agreed that no more time should be allowed Beattie.

Rev. W. R. Burrell, a Baptist minister, declared from the pulpit last night that Governor Mann was right in not interfering with the law.

Rev. Burrell is the minister who was preparing to deliver a sermon on the Beattie case last summer when he overheard a remark from a young woman on a street car to the effect that she "reckoned the preachers would be passing out Beattie dope from the pulpit when the papers stopped getting out extras."

The next day Burrell withdrew his announcement and did not refer to the Beattie case from the pulpit until last night.

## MEN'S MEETING

The evangelistic meeting held by the Christian Men's Union yesterday afternoon at the Central Church of Christ was a decided success. After the preliminary matters were taken care of by the president, Mr. E. M. Larason, chairman of the evangelistic work for this county in connection with the Men and Religion Forward Movement, was introduced and had charge of the remainder of the services.

Prof. Stuber had charge of the music and Rev. E. H. Lucas, the new pastor of the Pine Street Christian Union church delivered the evangelistic address. His theme was "Fishers of Men." The address was filled with the spirit of true christian work and delivered in a forceful manner, making it, not only interesting, but exceedingly helpful and uplifting to the men present.

Next Sunday the men will meet in the remodeled auditorium of the Y. M. C. A. Dr. R. C. Hill Ph. D., from Columbia University and a member of the Y. M. C. A. International Committee will deliver the address, and will use lantern slides to illustrate work and conditions among the industrial class. It is hoped that many of the shop men of Newark will take advantage of this meeting next Sunday.

The management will issue free tickets for the meeting next Sunday and every man can easily get a ticket and present it at the door, thereby enabling the committee to know how many men are present. It is to be hoped that the re-opening of the Y. M. C. A. auditorium next Sunday will be one of great success and further announcements will be made later in the week.

## GAME WARDEN

WILL STOCK THE STATE WITH QUAIL

Columbus, Nov. 20.—With the end of the hunting season for quail this year, Fish and Game Commissioner J. C. Speaks is going to launch an extended campaign of education on the care of quail and methods of encouraging propagation. The campaign against the game hog has borne good fruit and the next question which confronts the commission is conservation.

Next week the commission will begin to put in operation the plan for restocking districts which have now no quail from the well-supplied districts in southern Ohio. Farmers and game lovers in the northwestern part

of the state have promised to furnish food and shelter for the birds through the winter months.

Once given a start, General Speaks said, all save the more densely populated districts of the state can be kept supplied. Promise of co-operation has been made by organizations. A study of quail is being made in a number of Ohio colleges at the suggestion of the fish and game commission. It has been found that under proper conditions quail can be aided in

caring for young through especially constructed runways, which prevent birds of prey from destroying the eggs and little ones.

General Speaks declared yesterday that this year's hunting season gives promise of being far less dangerous than seasons in former years. He attributes the result in large part to organizations of sportsmen.

You who order "a sack of flour"—  
Who fail to say "Gold Medal Flour."

Then it's folly for us to select our wheat—

To wash and brush and scour it—

To grind each kernel through 20 sets of rolls—

To sift the flour 10 times through silk, and send you only that cream of the flour which comes through.

But you are not right, and our way isn't folly. It's immensely important to get Gold Medal Flour.

Just think of this:

Some 13,000 millers grind out flour. One miller only grinds Gold Medal Flour.

Yet that Gold Medal Flour, in the test of time, has come to outsell all the others.

It feeds 24,000,000 folks daily.

It must, as you know, be superlative flour. Next time you order decide your own flour. Say

## HEALTH HINT FOR TODAY.

### Diet and the Teeth.

According to a London dental specialist diet has more to do with the condition of the teeth than the toothbrush has. A soft diet will not afford sufficient exercise for the grinders. Eat plenty of hard food and masticate it well, such as toast, celery, salads, nuts, roots and fruits. An apple the last thing at night is one of the best ways of cleaning the teeth. The malic acid of the apple destroys the acid forming germs which cause decay. The apple also polishes the teeth and leaves the mouth sweet and clean in the morning.

## COURT HOUSE LIGHTS.

The comment of strangers passing through the city on the trolley cars or the Pennsylvania and Baltimore & Ohio trains as they see from the windows the brilliantly lighted court house dome is sufficient evidence to prove that the effort was worth while. The observations of Newark citizens commending the work is further proof. It was no little effort to secure a subscription list big enough to install this new service and provide for its maintenance but the general satisfaction and pleasure it has created is sufficient reward for those who undertook or contributed to the work.

It is to be hoped that the Board of Trade will not let its court house park improvement stop at this point. The walks are in sad need of attention, the trees demand the care of an expert and better lighting should be provided for each of the four ap-

proaches to the court house. The public spirited citizens have cheerfully provided the tower lights and for two fountains. They are willing to do more but they should through the Council furnish funds to care for the trees and the Commissioners should provide new lighting standards for the steps. The expense would not be heavy. The effect would be pleasing to everybody. The court house park is Newark's front yard. Let us put it in order and then keep it so.

## MUNICIPAL BEAUTY.

The women of Galveston, Texas, are taking a great interest in civic affairs. They believe that a clean, attractive, beautiful city is a far better place in which to live and transact business than is a town in which little attention is paid to the condition of the public streets, alleys, public buildings, stores and residences. And they are going about the work systematically.

"They have divided the city into districts. They have appointed committees for practically every block. They are teaching, pleading, arguing, in behalf of cleanliness, neatness, tastefulness, harmony and order, and are succeeding even beyond their most optimistic expectations in arousing a sympathetic sentiment. As a first step in the right direction they have made many see that Galveston, though prospering splendidly and possessing many natural advantages, is far from being a prepossessing city. Next they have shown how easily and inexpensively the people of Galveston, by working together, could change all this. And next they have demonstrated to property owners and the commercial interests that the question of making Galveston beautiful should be approached exactly as if it were a question of obtaining new transportation lines or new factories, or any other improvements advantageous to its people. As the Christian Science Monitor observes: 'When all is said, a community that is neglectful of popular comfort and culture can never, in the full sense, be a community for homes.'

## WHAT THE PEOPLE SAY

The people of the United States pay a subsidy in artificially-high prices to the wool industry of at least \$104,000,000 a year, according to calculations of Hon. Oscar W. Underwood of Alabama, chairman of the Ways and Means committee of the House of Representatives.

"The Payne-Aldrich tariff tax of 61 cents per yard, to say nothing of any increase in tax as it passes to the jobber, makes not less than \$104,000,000 paid each year to subsidize the wool industry of America," says Mr. Underwood. "Now the entire duties actually paid the United States on all imports of woolsens and worsteds in 1910 amounted to less than \$15,000,000 which means that of the \$104,000,000 extorted from the purchasers of woolsens nearly \$90,000,000 went to the woolen industry.

"Is it fair or just or right to maintain in these enormous taxes unduly to foster the business of less than one-fourth of one per cent of the people and to require ninety-nine and three-fourths to stagger under this enormous burden? I for one do not believe the American people will justify the President in his veto of the wool schedule."

And it is singularly coincident that by keeping this command there is at the present a perpetual Sabbath upon the earth. The Greeks observe Monday; the Persians, Tuesday; the Assyrians Wed-

## SPASMODIC PIETY.

So many in this vale of woe are shining lights on Sunday, and then they let religion go, while chasing seeds on Monday! On Sunday some are so devout you hear their pinions quiver, they sing the hymnbook with a shout, from liver unto liver, and when the Sabbath goes from us they search for bones and jewels, and do not care a linker's fuss for any set of morals. Six days on sinful games they flit, and once a week are pious; the book in which the Word is writ that sort of craft deny us. Religion's good the whole week through, to Saturday from Monday, and we should then refuse to do things we'd abhor on Sunday. they give the approval by the United States circuit court in New York of the tobacco trust reorganization plan. The tobacco trust is to remain; the decree of the court does not in practical effect dissolve it. Competition is not restored. The stock ownership is not divided. The actual activities of manufacture and distribution are not even placed under different supervisions. The circuit court politely declines the responsibility of making an order which shall make the business of the tobacco trust fulfill the Sherman law. Discussing the possibility of ordering a receivership and the sale of the tobacco trust property, the lower court says it could not prevent the present owners from bidding in the property if they were so inclined. In other words the tobacco trust is not "busted." Indeed, it is scarcely scratched.

## ANOTHER SHELL GAME

It is declared in Washington political circles that the Republicans are going to try to sidetrack the tariff and increased cost of living issue in the next campaign, and make the party's "big appeal" for support on the currency question. Republican leaders in both branches of Congress are at work on speeches the import of which will be that "the business interests will suffer as long as the currency system remains as it now is." The modified Aldrich plan on which the Republicans intend to go before the country provides for a national reserve association, which practically amounts to a central government bank.

The reserve association would have power to issue emergency currency, and could practically dictate the banking policy of the country and control the credit of the business world, a vast power.

Democrats in Congress have frequently pointed out the danger of allowing the money power to become any more centered than it already is, and many students of finance contend that the proposed "reserve association" would be little more than a money trust, whose controlling factors would very likely be the same group of men who now dominate Wall street and the Republican party.

Enormous expenditures for road improvement during the past few years, he asserted, make it necessary for the work to be done right and the money wisely expended. The resources of the department of agriculture, to help local authorities in getting their money's worth whenever they had roads to build, were, he declared, open to the command of the various communities.

Richmond, Va., Nov. 20.—"The most important subject in connection with the whole question of road improvement is 'maintenance,'" declared Logan Waller Page, director of the public roads, United States department of agriculture, today, in addressing the first annual convention of the American Association for Highway Improvement, in session here. "The people in many countries are filled with enthusiasm for road improvement," continued Director Page, "and are hastening to

spend enormous sums of money in the construction of superb roads, yet almost without exception, they are making no provision to care for the roads after they are built. The same holds true with reverence to road construction under many of our state highway departments."

Mr. Page said it required a considerable annual outlay to keep roads in good condition, but that this outlay was infinitely less than the loss which must fall upon the people eventually if they allowed their roads to go to ruin. "Provide continuous, systematic maintenance and set aside every year an amount estimated by the engineer in charge," he advised, "to be sufficient for the proper maintenance of the road, and you will follow a course which must make for economy and efficiency."

"It is necessary," declared Mr. Page, "that a thorough campaign of education be conducted in every locality where the burden of bad roads hangs like a millstone about the necks of the people. In this campaign of education, three things are essential: First, that your work must have a definite object; second, that your plans must be practicable; and, third, that they must have intrinsic merit."

"In launching the American Association for Highway Improvement, we endeavor to fulfill these three requirements by the announcement of definite purposes easily capable of accomplishment, and containing such intrinsic merit that their general adoption would place road conditions in this country on a sound and economic basis. These purposes are:

"To correlate and harmonize the efforts of all existing organizations working for road improvement.

"To arouse and stimulate sentiment for road improvement.

"To strive for wise, equitable and uniform road legislation in every state.

"To aid in bringing about efficient road administration in the states and their subdivisions, involving the introduction of skilled supervision and the elimination of politics from the management of the public roads."

"To seek continuous and systematic maintenance of all roads, the classification of all roads according to traffic requirements, payment of road taxes in cash, and adoption of the principle of state aid and state supervision.

"To advocate the correlation of all road construction, so that the important roads of each county shall connect with those of the adjoining counties, and the important roads of each state shall connect with those of adjoining states."

In conclusion, Director Page lauded the loyal and spirited support given the movement by the railroad companies. "It is immaterial whether they are actuated by wise foresight, or whether they have the welfare of the people along their lines solely at heart," he said. "The fact remains that they are doing work which benefits every man, woman and child within the zone of their influence, and full credit should be given to them for it."

## ENJOYS EVERY MFAL

Since Taking Vinol—Eating Was Punishment Before.

There are hundreds, even thousands of people right around here who have had no appetite for a long time and eat only because they must. A Brooklyn man, Thos. J. Sinclair says in a letter. "For nearly five years I was tormented with stomach trouble. I had no appetite and I suffered so much and so long that it seemed as if I never would get any relief. Vinol proved to be just what I needed. It brought back my appetite, relieved the painful symptoms and now my digestion is perfect. I enjoy every meal now, where formerly eating was almost a punishment."

This delicious cod liver oil remedy without oil is wonderful to stimulate the appetite and build up the body. All who are weak and run down from stomach trouble or other causes should try Vinol on our positive guaranty to refund the money if they are not perfectly satisfied.—F. D. Forward, Ark., Nov. 20.—The town of Forward has been stopped midway in its career, and as the result of the recent snow and cold wave is scattered for the distance of a mile.

Some time ago it was decided to move the town from the old site to another one a mile away.

Some of the buildings had been moved, others were in transit, and still others were in their old location when winter swept down and stopped all operations until next spring.

One restaurant now stands half way between the two half towns in the midst of a wind-swept flat field.

(Canton News-Democrat.)

Newark, a progressive city in Ohio, is receiving much advertising through a booklet recently issued by the board of trade of that place, showing the many advantages of the capital of Licking county. It is planned primarily to show the industrial advantages of the city and is handsomely illustrated with photographs of the numerous industrial plants.

The Newark board of trade has a membership of nearly 700. In a recent whirlwind campaign for membership 363 members were secured in seven hours. Such progressiveness tells, and Canton might do well to follow in the footsteps of its progressive sister city, for it has been several years since a book describing the "known the world over city" has been issued.

## CHRISTMAS ONLY

### SIX WEEKS AWAY

You'd know Christmas was near at hand without the calendar, if you'd drop in at Haynes Bros., the well known jewelers, at 8 North Park Place. The hustle and bustle of Xmas is already in full blast here. Box after box of Christmas goods have been coming in for weeks and while some of the things are not yet on display, they'll be glad to show them to you. Many Christmas gifts are already bought. There were never so many new things brought out as there are this season, which makes such a large selection of acceptable gifts for men and women—and let me whisper that while they look so expensive, the prices are surprisingly moderate.

People are wiser every year in their Xmas buying—they shop earlier. They find out each season they should have begun long before they did.

Get first choice and get the cream of the goods. By making a small deposit, Haynes Bros. will gladly lay away until Xmas any article you may select. 16-17-20

Moffit had not expected to make the flight and went into the basket wearing a light overcoat and low-cut shoes. Captain Bumbaugh was dressed to withstand the rigors of a trip into the far North.

Aside the usual equipment for a balloon trip the Duesseldorfer carried a lime stove and a wind shield.

The Lahn cup, which is offered by the Aero Club of America, is now held by A. Holland Forbes, who won it Oct. 12, 1900, in a flight from St. Louis, Mo., to near Richmond, Va., a distance of 697.17 miles.

## WALT MASON'S NEW BOOK

Walt Mason, the inimitable prose poem writer of the Advocate, whose splendid little poems delight so many of our readers, has just put out his splendid material in book form under the title, "Business Prose Poems."

The poems have been selected from those that appear daily in the Advocate.

Walt Mason's poems have the tang peculiar to themselves—Masonesque, delightful. No one could read them without feeling like getting up and shaking hands with himself. Walt Mason has invented a new style. He is a national figure, whom William Allen White calls "the poet laureate of America." Walt Mason imitates no one—he does not pretend that his good, wholesome philosophy is all his own. His is the philosophy of the American people to cheer, hopeful—based on good common sense.

Walt exhorts thrift and industry, yet preaches moderation in every virtue. The Masonesque philosophy is founded on the theory that every man should be a normal, clean, gentleman.

Walt Mason is a force—he is doing his part in the world. We are, and should be, exceedingly proud of Walt Mason in Newark. His splendid prose poems are read eagerly by the readers of the Advocate, and we highly recommend his illustrated book, "Business Prose Poems."

## SOCIETY

Mr. and Mrs. Ray Foss of near Martinsburg, were pleasantly surprised several nights ago by a number of their neighbors and friends. Recently Mr. Foss lost a horse, and his friends raised a purse of \$65, which they presented him. The evening was passed in a pleasant manner, and refreshments were served.

Mrs. W. C. Miller was hostess to the members of the Review club on Saturday when she entertained at her home in Hudson avenue. The following program was given:

Quotations—Mrs. F. M. Black.  
Child and Woman's Labor Leader—Mrs. W. D. Fulton.  
Talk—Mrs. W. C. Miller.  
The Juvenile Court—Mrs. F. W. Seymour.

The following invitations have been issued:

## HEART AND HOME TALKS

BY BARBARA BOYD

## The Value of Dress to the Business Girl.

UNFORTUNATELY today, in judging a person's ability, dress counts for more than it should. Without doubt merit is often compelled to appear in shabby clothes, but merit in shabby raiment gets scant attention. So the girl seeking a position had better face these facts and lay her plans to circumvent them.

A very capable girl sought a position which she knew was vacant on a woman's magazine. She had the education, she had the experience, and most decidedly, she had the ability to do the work. But she was just back from a prolonged illness; that is, she had just returned from an outdoor consumptive camp, for there had been symptoms of incipient tuberculosis. The diagnosis, however, had been wrong, or else she had recovered, for she was now completely well. But her funds were at a rather low ebb. And instead of spending what money she had on clothes, she decided to get along with the wardrobe she possessed until she could secure a position—an eminently sensible proceeding, one would say, considering that a costume, no matter how stylish, can scarcely take the place of food and shelter in New York or any other place.

She heard of the position and applied for it. But the fashion plate in the editorial chair glanced at the faded summer hat, the linen dress that had seen many launderings—it was rather late in the fall for such apparel—and paid scant heed to the applicant's qualifications. To an office associate, she remarked after the girl had gone, "She did not look at all as if she could do the work, and it wasn't worth while to waste time on her."

Another woman who had decided to support the family herself, after struggling for a year with poverty because of the husband's inability to find work, started out to get a position. The woman to whom she applied for letters of introduction knew that she was almost certainly facing failure in the work she sought because of her appearance. Her hat was of her own construction, and she was by no means a milliner. The rest of her costume was in keeping. It was not the woman's fault, she had done the very best she could; and she was to be honored for her efforts. But this did not change the facts of the situation confronting her. Most of us know that these conditions should not be. But we cannot blink the fact that they are. The fashion-plate may not last in the editorial chair, and the pendulum may swing back to where it belongs. But in the meantime, girls who need work will starve. And since this fictitious value is given to dress, a girl should recognize it, and meet it as nearly as she can. If she is applying for a salesgirl's or a stenographer's position, she should be neat, smart, not extreme in dress, but immaculate and well groomed. If she seeks work where a knowledge of fashion is part of her duties, her dress should indicate she is thoroughly familiar with the smartest modes. If she is to meet people of wealth and position, she should dress so as to make a good impression and be well received.

If she has exceptional letters of introduction, these may override the handicap of shabby or inappropriate clothes. But if she must depend upon herself, the first impression she makes, which may be the only chance she will get to make an impression, will count tremendously for or against her.

We may have our own opinion of the business despot who is influenced by clothes. But that is neither here nor there. Since he is master of the situation, and since in the majority of cases, he will judge of a woman's capability by her looks, it is well to be there with the goods in the matter of dress. But this must not be misunderstood. By it is simply meant that a girl should dress in keeping with the work she seeks, if she wants a most efficient ally in helping her to get it.

## FATHER KILLED BY DAUGHTER AT FLINT, MICHIGAN

Flint, Mich., Nov. 20.—With a loaded shotgun in his hands and uttering threats to kill the whole family, Frank Young, aged 50, was shot down and instantly killed by his daughter, Mrs. Marion Mills, at the latter's home near here yesterday.

According to the story told by Mrs. Mills and her husband, Francis M. Mills, Young came to their home in search of his wife, whom he had driven from his own home last Friday. When Young reached the door he asked for his wife, who was then in the cellar hiding. Mrs. Young refused to go home with her husband or to speak with him alone. Immediately after his wife's refusal, according to Mills' statements, Young drew his gun to his hip with a threat to kill the whole tribe. Mills grappled with his father-in-law, but was being over-powered when Mrs. Mills seized another gun and fired. Young was shot through the lung, dying instantly. Both Mrs. Mills and her husband are under arrest.

REHEADS HIM WITH RAZOR.

## MEMBERS OF POSSE AND OUTLAW KILLED

El Paso, Tex., Nov. 20.—Sheriff Stephens of Luna county, New Mexico, has arrived at Engle with the bodies of Tom Hall and Al Smith, members of his posse, who were killed yesterday near Engle while attempting to arrest three outlaws who escaped from the Deming jail. They also brought with

## MIX-UP IN AFFAIRS OF YOUNG CLADWELL GIRL RESIDING IN NEWARK

Merging into the dimmest shadows the most sensational fiction is the story of the marriage of Miss Olga Mercedes Garber, who is claimed by two men to be their bride of but a few days.

Miss Garber, or Mrs. Cochran or Mrs. Hall, is a Caldwell girl and has been working for a private family in Zanesville. About four weeks ago she came to Newark to work for Mrs. McKim at the Doty House. Her conduct was the best, and a few days after her arrival a gentleman called and asked for her. He left soon after and in the meantime an acquaintance had sprung up between Miss Garber and Mr. Bennett Hall of Keystone, W. Va., who is making his home at the Doty House.

One evening Mr. Hall took the girl to the theatre and while they were gone the gentleman who had called to see her before asked for her and on learning she was out took up a watch outside the hotel. The girl evaded him however, until the next morning when a heated argument took place between them in the kitchen.

A day or two after this the young woman received a telephone message from her home at Caldwell to come home. She ignored this but later received a telegram and she left for her home. She was gone until Friday when she returned saying her people were trying to force her to marry John Foy Cochran, a contractor employed on a municipal contract at Co-shocton. She told her story to Mr. Hall, and the couple decided to go to Kentucky to be married. Mr. Hall thinking to free the girl from the untasteful influence. They returned home telling the people at the hotel of their marriage.

The girl wrote her people telling of the wedding and her happiness but on her return to the hotel, she seemed pensive and fearful of something.

When the body of the leader of the outlaws, whom they killed and whose name is unknown.

## PRINCESS ALICE TRIMS HER OWN STYLISH HATS

Washington, Nov. 20.—Parisian milliners would envy the skill with which Mrs. Alice Roosevelt Longworth trims her own fetching hats. In passing through Washington en route to Cincinnati, where she will remain until the opening of Congress, Mrs. Longworth proudly displayed to her friends what she called her "reversible hat."

The marvel of the milliners' art was an Alice blue French velour, which, trimmed simply and turned up at one side, made an attractive traveling hat. Mrs. Longworth explained that whenever she wanted to wear the hat for dress affairs she simply put a mass of white egrettes on it and placed a flower here and there.

She has long been noted for her beautiful and effective hats. She aims to make her hats suit her own face rather than the styles.

The present temporary place with fire vault will be for rent and the old furniture and fixtures will be for sale. Here is an excellent opportunity for some wide-awake business desiring a very central location. The Buckeye pays five per cent of time deposits. Assets \$5,000,000.

**A KISS**  
BY MISS HILDA WADDELL.

Now Jack—he was a printer—  
A printer—good and true.  
He had the cheek to print a kiss  
On the cheek of pretty Sue.

You ought to see that printer's press.  
When he pressed Sue to him.  
But one sad day he ran away  
Now Sue is going to sue him.

Sunday morning the girl's mother and brother came to the hotel and the boy asked to see "Miss Garber, or Mrs. Hall." He went to her room while the mother remained on the steps. While here the mother seemed seized with paroxysms of grief, and Mrs. McKim took her into the office. A bitter controversy ensued among the trio and they finally left with the girl.

The mother claimed that the girl had been married on Thursday afternoon at 4:30 o'clock in the Presbyterian church at Caldwell to Mr. Cochran. The girl protested that this was not true and she asked Mrs. McKim to loan her money to return to Newark and her last words were for Mr. Hall, who had taken his train out. She said to tell him that she would return to him and that she cared only for him. Friends of Mr. Hall tried to reach him by phone but were unable to do so, and when he returned at 3 o'clock Monday morning he nearly collapsed at the news.

The affair created a great deal of excitement at the hotel and the residents there are unable to solve the problem. Why the girl should do such a deed or why she had been married should she so firmly protest she is not are a few of the questions that are hard to answer.

A dispatch from Caldwell says that her relatives were mystified to receive a telephone message from her at Cincinnati saying she had just been married to Mr. Bennett Hall of Keystone, W. Va., when out on Thursday she had become the bride of Mr. John Foy Cochran of Co-shocton.

Mr. Hall is an employee of the B. & O. railroad in this city. When the party left the hotel the mother said they were going to take the girl back to her home, and no word has been received from any of them.

## Pimply? Well, Don't Be!

People Notice It. Drive Them Off With Olive Tablets.

A pimply face, will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The pimples will vanish after you have taken the tablets a few nights.

Nothing ever cleansed the blood, the bowels and the liver like Olive Tablets.

Olive Tablets are the only successful substitute for calomel; there's never any sickness or pain after taking them.

Olive Tablets do all that calomel does and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are made of pure vegetable compounds mixed with olive oil.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Try them. Take one nightly for a week. Then look at yourself in the glass and see how you feel.

"Every little Olive Tablet has a movement all its own."

At all druggists in neat pocket packages at 10c and 25c.

## AMUSEMENTS

Saturday Night's Play.  
For two performances Saturday "The Rosary" was played at the Auditorium theatre. And on this, its second presentation to Newark theatre-goers, the production was vastly superior to its first appearance. The company was better balanced, better looking and better costumed.

"The Rosary" has become one of the most popular plays of its type, and while its general ideas are those of the Roman Catholic religion, the religious lesson it teaches is not for any particular creed.

As Father Brian Kelly, John Drury is well fitted for the role. He has a delightful speaking voice, with its touch of brogue, and appears to advantage in the part. Oliver Hinds and Lee Harvey essayed the roles of Bruce Wilton and Kenward Wright, respectively, and both were clever. Wanda Brindley worked hard in her delineation of the double role of Vera Wilton and Alice Marsh. The remainder of the company was pleasing.

## What the Press Agent Says:

The Orpheum.  
Bobby Strauss & Co. will drive away the blues the first three days of this week with the presentation of M. Strauss' original playlet, "Beale's Biscuit." This comedy is new and snappy, guaranteed to make you laugh. Mr. Strauss in his impersonation of the old negro mammy, is a scream. There are two others in the company and both are said to do excellent work. The farce gallop along at a lively pace and is undoubtedly the best thing of its kind seen here this season. Fields & Hanson, in a comedy musical act are sure to please. They are talented men who know what the people like and how to please them. Both are old timers, but they always have a new line of comedy music, which they offer in their black-face make-up, which in itself provokes a hearty laugh. Jack Van and Al Hoffman, as the "Dutchman and the Other Guy," are featuring and singing the big song hits, "Alabama, Queen," "What Would You Do?" "Send Me a Postal from New York Town," and "On Looking for a Sweetheart."

Both members of the team have excellent voices and use them splendidly, never failing to please their audiences. The Two Tatts are of doing something different from all other magical acts this season, in their up-to-date pantomimic novelty. The act is set very attractively in novel stage settings and effects and their costumes are very pretty. The Orpheumscope has a new picture.

Mary Emerson and Company.  
Great interest is manifested in the forthcoming engagement of Miss Mary Emerson and her own company to the Auditorium tonight, for a week's stay, presenting her own repertoire of plays and a number of other New York successes.

The past six seasons Miss Emerson has starred in "The Making of Madalena," "Will of the Wisp" and "His Majesty and the Maid." This season she has added "Lady Frederick," Ethel Barrymore's brilliant comedy; "Morals of Marcus," Marie Doro's wonderful romantic drama, and Samuel Lewis' latest detective play, "The Steak of Yellow," making a series of

standard successes which should satisfy the most blasé and offering each play as a complete scenic production. Judging from the hearty approval of both press and public, Miss Emerson has touched the popular fancy to a nicety. The company is under the direction of Samuel Lewis, whose judgment in the selecting of the cast is all than should be demanded, and the following roster of players have been selected: Ten Eyck Clay, Franklin Ramsay, Walter Sherwood, Johann Wray, Nathan Grosswald, Richard Walling, True Powers, Edna Egbert, Eleanor Blanchard, Aura Jewett, Mildred Robinson and Polly Phenix. Monday evening "The Making of Madalena" will be the play selected for the coming attraction. The usual matinees will be the vogue for the week at bargain prices. Seat sale now open at the theatre box office, where special attention will be paid to telephone and mail orders for every performance.

Mr. Davidson stated that they were not coming back empty-handed even if it broke the whole crowd to pay for all the game that they could buy on the Ganessville market.

## Gold Dust Brightens the Home

Nothing is so attractive as a cleanly home; nothing contributes so much to cleanliness as Gold Dust. No matter what it touches—china, pots and pans, floors, woodwork, clothes, etc.—it cleans thoroughly, leaves everything spotlessly clean, bright and attractive.

Don't use up all your time and strength trying to keep things clean; use Gold Dust everywhere you can—in all your household cleaning—and let it do the work. It works so quickly and thoroughly that really it makes cleaning a pleasure instead of a task. It makes home "sweet" home.

## Daddy's Bedtime

The Story  
Telling Princess  
And the Sultan

The Sultan Listens to the Story

"MUST I think up a story so soon?" groaned daddy as Jack and Evelyn crowded around him for their bedtime yarn.

"Well, I feel as worn out as the Princess Scheherazade must have felt after her thousand and first night of story telling."

"Who was that princess?" inquired the children. A lady who could spin stories at that rate vastly interested youngsters with so keen a taste for yarns.

"Scheherazade," replied daddy, "is a lady told about in a book called 'The Arabian Nights.' Her father was the grand vizier, or chief officer, of an eastern ruler. Because his first wife had behaved badly the sultan punished all the women of his country by marrying a wife one day and ordering her head cut off the next."

"Now, no doubt, the Princess Scheherazade often heard her father say that it was a pity that the sultan, who used to be so amiable a man, should have taken such a foolish and cruel notion. Probably the princess often wondered if there was not some way of curing him."

"At last she had an idea. She begged her father to let the sultan know that if he cared to marry her she was willing to become his bride."

"When the grand vizier spoke to the sultan about his daughter the latter was much surprised. The young ladies whom he had lately married had been far from willing brides, knowing that they must lose their heads the day after the wedding."

"When they were married and the sultan lifted his bride's veil he was charmed with the lovely face and graceful manners of Princess Scheherazade."

"Moreover, the wily Princess Scheherazade had no intention of losing her head. She asked the sultan if she might not have her sister come in to bid her farewell in the morning. This seemed so reasonable a request that the sultan readily granted it."

"The morning brought the sister of Princess Scheherazade with tears in her eyes. 'Oh, my sister Scheherazade,' she begged, 'will you not, as it will be for the last time, tell me one of those stories which you relate so pleasantly? The sultan, who was present, was willing that his wife should tell her sister a story. He listened to it and found himself becoming deeply interested. When the breakfast bell rang the story was unfinished. 'You must finish it tomorrow night,' ordered the sultan, and so his wife's head was saved that day. But the princess cleverly started a better story next morning and kept on leaving off each day in the most interesting part until she had strung the stories out over one thousand and one nights."

"By that time the sultan loved and admired her so much that he would not have harmed a hair on her head."

## CASCARETS SURELY STRAIGHTEN YOU OUT

No Headache, Biliousness, Upset Stomach, Lazy Liver or Constipated Bowels by Morning.

Are you keeping your bowels, liver and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway through these alimentary or drainage organs every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, coated tongue, indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

## BETTER BUY BOOKS NOW

A prominent Columbus lawyer writes to the Board of Trade:

"I received the book issued by the Newark Board of Trade and was interested and greatly surprised in the number of large manufacturing industries located in Newark. The work of bringing a definite realization of the large industrial enterprises located in the city to the notice of the citizens and especially its business men, is worthy of your best efforts. I know of no other way in which that could be done as effectively as by the issue of this attractive book.

"I have come in contact with the work of Chambers of Commerce of New Orleans and Detroit during this year and have attempted to assist in the work of our own Chamber of Commerce, and I do not hesitate to say that your showing of membership and the general interest of your business men in co-operating in the issue of your book indicate that your organization is one of the most effective in the county in proportion to the population of the city which it represents."

This is a sample of the many letters received. Many newspapers have published complimentary editorial comment on the book and Newark.

An edition of 10,000 copies was printed and nearly all save the few copies that will be held by the Board of Trade for future use, have been sold. A few hundred copies are still on sale at the news stands and book stores. Those who bought 500 copies paid 16 cents each for them. You may buy a single copy for 16 cents. Many people are buying books to send to out of town friends. They are appreciated especially by former residents of Newark. Have you done your part toward spreading Newark's fame? The supply of books will not last long. Better buy yours now.

## PREPARING

Continued from Page 1.) The Russians have done likewise. The gunboat El Cano is the only American warship here. The Helena is down the river getting supplies, but she is expected to return shortly.

The greatest danger if the railway is cut is that the imperialist army will be deprived of supplies and grow desperate. Dr. MacWille, President of the Red Cross Society, reports that three quarters of the city of Hankow and inhabitants remain where formerly there were 700,000. The David Hill Memorial School for the Blind, attached to the Wesleyan Mission, which was probably set on fire by a shell, was destroyed, together with the girls' schoolhouse and the master's house.

There has been only occasional artillery and rifle fire during the past three days. It is reported that a small party of revolutionists crossed the river last night and attacked the imperialists at Station Kilometre Ten, but were driven back.

The situation in Southern China is becoming more involved each day. The Republicans apparently are determined to secure their independence from the Manchu dynasty, but there are grave doubts of their ability to establish a stable government in time to avoid the consequences of continued disorganization and the absence of revenue and other competent administration. The local organizations are preserving order.

The recognition of the importance of Nanking, and both they and the imperialists are directing all their efforts to this important center, where victory may mean either the end of the Manchu dynasty or the serious set-back to the revolutionary cause.

The revolutionary forces approaching Nanking number many thousands. From Anking, on the north side of the river, 4,000 revolutionists with 41 guns are marching to Pukow which lies opposite Nanking. From Wu-Hu, on the south side of the river, 2,000 men are advancing.

Fifteen warships, now in the river, under command of the rebels, are awaiting the signal for the attack.

The Imperialist garrison at Nanking, under the command of General Chang, number about 11,000 men, well trained, well armed, and strongly entrenched and fortified. It is believed that all the Republican forces are within one day's striking distance of the city.

Admiral Sah, who commanded the loyal squadron at Hankow, and whose whereabouts have been uncertain for some time past, arrived

in Shanghai Sunday. He appeared much depressed. It is not believed that Admiral Sah will take any further action until the outcome at Nanking is certain. Reports received here direct from Nanking say that all foreigners north of Pukow are safe. The consuls have recommended that all Americans in the Yangtze valley come in immediately to Shanghai.

All the American residents of Nanking are believed to have fled to the nearest seaport. The American consul, Wilbur T. Tracy, has left for Shanghai on the United States destroyer Barry.

The 2,000 United States troops ordered to China are expected to arrive there by December 1.

Demands for the throne's abdication are crowding upon Premier Yuan Shi Kai, who will doubtless be forced to make a decision within a week. It seems to be a case of fight or ask the court to depart from the capital. Every suggestion for abdication is accompanied by promises of protection and ample pension.

London, Nov. 20.—A news dispatch to the Exchange Telegraph from Tien Tsin states that the report of the massacre of foreigners totaling 8,000 have been massed at Canton preparatory to their dispatch to Nanking where they will co-operate in a siege of the city.

## A LIBERAL OFFER

We Guarantee to Relieve Dyspepsia. If We Fail the Medicine Costs Nothing.

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it. The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well known properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid. Without it the digestion and assimilation of food are impossible.

The Carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. The combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal guarantee. Three sizes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies only at our store, The Rexall Store—Frank D. Hall, 10 North Side Square.

## ONCE WEALTHY BANKER NOW A HORSE THIEF

Ellyria, O., Nov. 20.—Robert Green, confessed horse thief, but for five years prominent in Crawfordville, Ind., as banker and Sunday school superintendent, after a quest of 18 months, has been located in the penitentiary at Philadelphia.

Prosecuting Attorney Stevens received a message from Sheriff Claude Bivin, who left here Friday for Philadelphia, in response to information from that place, that he had found the prisoner none other than Green.

Green was arrested in Cleveland for the theft of a team from a farmer named Parsons, residing near Oberlin. He was brought here and put in jail. For a time he seemed a model prisoner, but on May 1, 1910, he attacked Turnkey Ray Van Dusen with an iron bar. He beat the turnkey's head to a pulp, took his revolver and keys and walked from the jail.

Within half an hour 50 armed men were in pursuit of Green in automobiles. There followed a chase that lasted several days and extended all the way across the Ohio. Green finally eluding his pursuers near Coshocton. Here he had appropriated teams to aid his flight, which was the cause of the sensation of the time in this state.

He is under indictment here for assault with intent to kill and for horsestealing. It is expected he will be brought back upon his release in Philadelphia, where he is serving a sentence for horse stealing.

Five years ago Green was one of Crawfordville's wealthiest men. He lost his money trading in wheat, and then embarked upon a career of horse thievery. For stealing a team in Crawfordville which he sold in Indianapolis, he was serving a term in Michigan City state prison, when he escaped two weeks before he would have been paroled.

The railroads are issuing orders limiting the size of trunks and the milliners are issuing orders increasing the size of hats. In a conflict like that the railroads must not suppose they are going to win.

## FOUNDERS' DAY WAS OBSERVED AT GRANVILLE

Hon. E. O. Randall of Columbus Delivered Appropriate Address, News of the College City.

Granville, Nov. 20.—Founders' Day was appropriately observed in the Baptist church Sunday night, when a union meeting of all of the churches of the village and the citizens generally assembled to listen to an address by the brilliant, entertaining and scholarly Hon. E. O. Randall of Columbus on "Moral Results of Recent American History."

It was just 106 years ago that the first company of New Englanders arrived, Saturday, Nov. 2, 1805, having kept the Sabbath religiously and having been 44 days on the journey. The second group came on Tuesday, Nov. 12, having traveled 49 days, Sunday included. On Sunday, Nov. 17, three men arrived who had come through without any load in 22 days. About Nov. 20, 16 more came, and on Dec. 2, 25 more, 51 days out, these swelling the total to 176, 52 being heads of families. Others came drifting along, until in January, 1806, the colony comprised 230 persons, and these justly may be considered the founders of what on March 7, 1806, was formally designated Granville after the old home in Massachusetts.

The meeting was opened by Dr. Newell, pastor of the Presbyterian church, reading the Scripture lesson, after which the choir rendered a beautiful number, followed by prayer by Rev. Mr. Hauck, pastor of the Methodist church.

The address of Hon. Mr. Randall was exceedingly interesting and set forth the lessons taught foreign countries by the policies carried out by the United States in her foreign wars. The address was full of good things and contained a lesson that would be well to ponder over.

At the conclusion of the address, Prof. C. E. Goodell, president of the Granville Historical Society, under whose auspices Founders' Day was observed, suggested the propriety of broadening of the scope of the society by adding to it a civic improvement society. He said that he was well aware that for a number of years there had been a civic improvement society in Granville, consisting of the enterprising women of the village, but he would like to see the men take hold, and assist in beautifying and building up Granville until it would be known all over the country as Greater Granville.

He then called on the congregation to manifest their approval or disapproval of the suggestion by raising their hands. The result was a unanimous expression in favor of the suggestion.

Dr. Emory W. Hunt, president of Denison University, then made the following motion, which was unanimously adopted: "Resolved, That it is the sense of the people here assembled that the Historical Society ought to enlarge its functions so as to include within its operations the civic improvement of the village of Granville, and to that end we urge that it take immediate steps to consult with the good women of the village now represented by the Civic Improvement Committee, and either arrange with them for the vigorous promotion of the work of civic improvement, or to undertake the work under the auspices of the society, by means of which the men of the village may be enlisted to share the work, which our good women have so nobly undertaken of their own accord."

Judge John M. Swartz, in an enthusiastic talk, seconded the motion of Dr. Hunt. He was glad to know that the women of Granville had done so much during the past two years to beautify and help Granville. He thought, however, that the time had come when the men should take a hand in the unbuilding of Granville and do all in their power to bring about Greater Granville.

The probability is that active work will soon be started toward the formation of an improvement society in Granville in which every resident of the place—men, women and children—can take part.

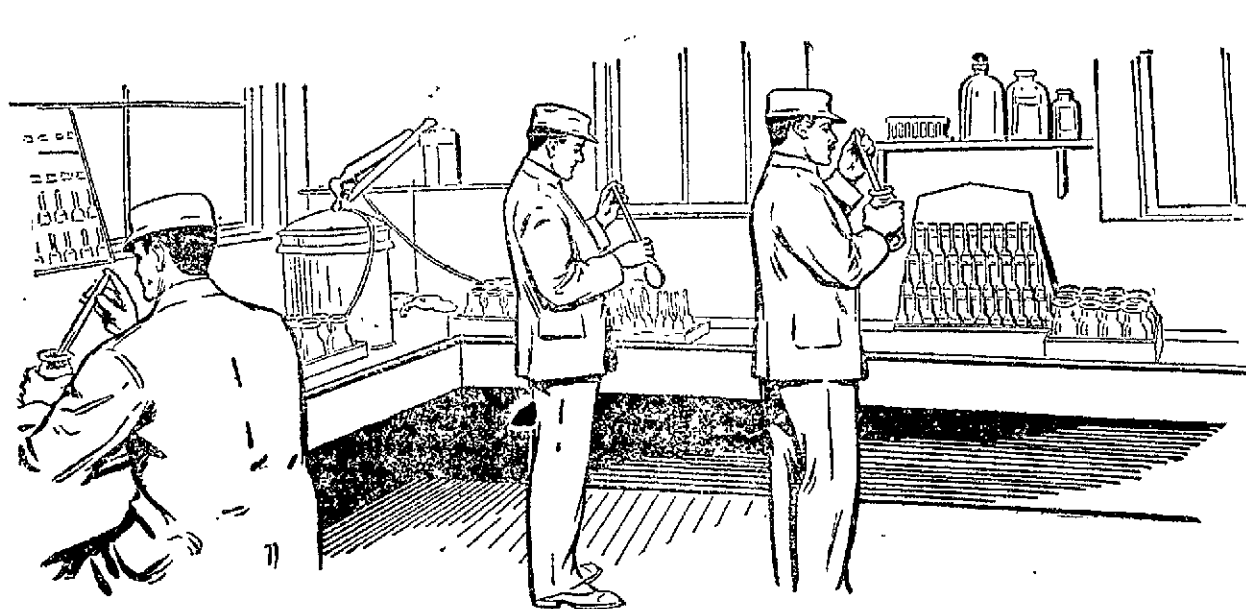

The remains of Mrs. Ellen Rose Clemons Peters, who died Friday night at the home of her daughter, Mrs. O. B. Samson, 43 West avenue, Columbus, arrived here Monday afternoon and were interred in Maple Grove cemetery. The funeral services were held at the home in Columbus Sunday afternoon at two o'clock and were conducted by the Rev. C. C. Elson. The deceased was twice married. Her first husband was William H. Clemons. On Oct. 9, 1900, she was married to Joseph D. Peters, who died last year in Postoria. The deceased was a daughter of Levi and Sophronia Rose, the former being a son of Levi and Polly Rose, who were among the first settlers of Granville, having located here in 1805.

Mr. and Mrs. Burton Case, who left some time ago in their automobile for an extended trip through several states, winding up in Evansville, Ind., where they enjoyed a pleasant visit with their daughter, Mrs. R. S. Edwards, have returned home. During their absence they visited friends in Indianapolis, Richmond, Dayton and Columbus, and traveled over 1500 miles without a puncture.

James Ehrenfeld of Emberton, Pa. was in town last week looking over the gas fields.

Mr. and Mrs. D. S. Willard of Pomeroy, O., who have been visiting relatives and friends here for a few days, returned home Saturday, after having had a most enjoyable visit.

## Laboratory-Tested Milk Utterly Free From Germs

For Less Than Thin, Germ-Laden Milk

### Mrs. Housewife—

Close to each of our dairies, in seven northern states, we maintain a complete milk laboratory. There we test the milk's richness and purity. There we prove that it's free from germs.

Our standards are fixed by famous Dutch and Swiss experts. And there is no finer milk produced in the world than the milk they select for you.

### Richness Doubled

The milk fresh from the cows is put into a copper vacuum. There, in moderate heat, we evaporate two-thirds of the water. Thus the richness of the milk is much more than doubled.

It is then as thick as thick cream—28 per cent solids, 8 per cent butter fat. Yet, save for the water, it remains natural milk. Nothing whatever is added. When you put back the water you have milk just as it came from the cow, except for sterilization.

### Like Using Cream

In coffee and on cereals this milk is just like cream, so rich that most people reduce it. In cooking it gives to milk dishes a most surprising flavor.

## Van Camp's Milk

Evaporated—Sterilized—Unsweetened

Van Camp Packing Co. Indianapolis, Ind.

Yet this is nothing but milk—just the whole, rich milk. You don't often get that from the milkman because the milk separates. Before it gets to the cooking it is often only a half-milk.

Used on the table you have the advantage of using a germless milk. Raw milk, as you know, is always germ-laden. Nothing else that is eaten or drunk carries so much infection. Van Camp's Milk is pasteurized after the can is sealed. It is absolutely free from germs.

You can buy, if you wish, a month's supply at a time. It is always on hand—milk or cream—and never any waste. An opened can keeps until you use it up.

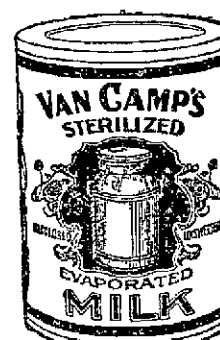

Think of buying milk from day to day—milk always filled with germs—when a milk like this can be always on hand, always fresh, always the best milk produced in America.

### It's Cheaper, Too

Our method saves the cost of daily delivery. That's about four cents per quart. And it saves all waste. In the average family the use of Van Camp's cuts milk bills square in two.

This milk—from the finest high-bred cows—tested and pasteurized—costs less than milk-wagon milk. Do you wonder that people now use all we can get from 30,000 cows?

The 16-oz. can—a full pint of Van Camp's—costs 10 cents. The 6-oz. can costs 5 cents. That's with two-thirds the water evaporated. Your grocer gets it direct from our nearest dairy.

## SHE HAD CONSTANT PAIN

Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Dewittville, N.Y.—"Before I started to take Lydia E. Pinkham's Vegetable Compound I suffered nearly all the time with headaches, backaches, and bearing down pains, and had a continuous pain in my left side. It made me sick if I tried to do much, and my back was so weak that I was obliged to wear corsets all the time. But now I do not have any of these troubles. I have a fine strong baby daughter now, which I did not have before taking Lydia E. Pinkham's Vegetable Compound."—Mrs. A. A. GILES, Route 41, Dewittville, N.Y.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

TO VOTE IN COSHOCTON. Coshocton, Nov. 20.—That several hundred more names than necessary will be filed in the petition of citizens for a special election under the Rose law is assured. The required 35 per cent has been passed and a dozen townships are to be heard from. Rumor has it that Wm. Miller of Granville, who conducted the dry campaign in Newark three years ago, will be in charge of the dry forces here. Mr. Miller, who recently sold his Portsmouth newspaper was in town Saturday.

YOUR GRAY HAIRS WILL QUICKLY VANISH

A feeling of sadness accompanies the discovery of the first gray hairs, which, unfortunately, are looked upon as heralds of advancing age. Gray hairs, however, are not always an indication of advancing age, for many people have gray hairs quite early in life. Of course, it is natural, and indicates that there is something wrong with the individual, and that Nature needs assistance in correcting the trouble. The same is true of hair that is constantly falling out and becoming thinner every day. If everything is right with Nature, the hair, even in comparatively elderly people, should be long, thick and glossy, without even a streak of gray.

The ideal assistant to Nature in restoring and preserving the hair is Wyeth's Sage and Sulphur Hair Remedy, a clean and wholesome dressing for daily use. It not only removes dandruff, but strengthens weak, thin and falling hair and promotes its growth. A few applications will restore faded or gray hair to its natural color.

Get a bottle today, and let it do for you what it has done for thousands of others.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

BUSINESS PROSPECTS. Wall street may be blue, but fundamental conditions are very sound everywhere. The banks are all strong in cash. In fact, the majority of them have too much money. For the past four years the policy has been to curtail, retrench, weed out the bad from the good and economize in general. The result has been the placing of the finances of the country on a sounder basis and the strengthening of the general business situation. Business is ready to go ahead as soon as the country is released from its bondage of political agitation. One of the great troubles is that we have too many politicians who lack the business training necessary to safe and sound legislation.—John W. Gates.

## INDIAN FRIEND WRITES LETTER TO MAYOR JONES

When the mayor of Buckeye Lake, Hon. O. C. Jones, was in India during his trip around the world in 1909-10, he made the acquaintance of Mr. Gangadhar Rao Gargay and has since carried on a correspondence with him. Mr. Jones is just in receipt of the following letter:

Yawab District East Khandwa India. Dated the 16th October 1911.

My Dear Jones, Your letter of the 19th August 1911 with two photos duly to hand with a copy of the Advocate in which my letter with its reply from you was published. I am extremely sorry to inform you that my elder brother Narayan Rao who was the head of the family, breathed his last on 18th of age. He left a widow with two young children behind. He was a railway servant and he served the company for nearly 10 years. It is a great shock to my family and specially to our old father who had never such a calamity in his life. It was God's will and man cannot help. Plague broke out in Khandwa after I dropped you my last letter. No sooner it appeared we left the town and lived in huts in open place. The whole town has been vacated but plague cases occur in camps now. On the day my brother died I and my old father got fever and we left place where we came to our uncles. I was on one month's privilege leave which expires on 19th October but as I am not well yet I have to extend it by one month more by which time it is hoped plague will subside in Khandwa. Probably my services will be required for the Delhi Darbar of his Most Gracious Majesty the King of Great Britain and Ireland and Empire of India. The Darbar will be held in December next.

Your sister Irene C. Jones with her two cousins Mr. and Mrs. Alfred Wilson of Columbus, O., will be cordially welcomed by me when they visit Khandwa. Yes, you can send me photos of the party so that I may recognize them when they arrive at that place. I shall be glad to hear that you have been elected a mayor of your city and that I shall see my way to visit your place with is no doubt rather expensive for a man in my position.

The crops of our country too have suffered much for want of proper rain. However, we shall have sufficient corn for our food, but there will

be scarcity of drinking water and fodder. I am sorry for the accident of the automobile but at the same time I am glad to learn that none was harmed. It was good that it was insured for 2,000 shillings.

There is nothing more to communicate to you in the present letter. Please write at your convenience on the former address.

Hoping this finds you all in sound health. Yours truly, GANGADHAR RAO GARGAY, 2nd Clerk District Council Office at Khandwa, C. P., India.

POLICE CALLED UPON TO UNRAVEL MAN'S IDENTITY

San Francisco, Cal., Nov. 20.—A well dressed young man appeared at police headquarters here and asked for aid in discovering his identity. He said he had forgotten his name and remembered nothing of his past life.

The police made an investigation and answered the young man's inquiry by informing him that he is J. W. Hill of Detroit, and that he is wanted in several cities for having passed fictitious checks. He was arrested and is held on two charges, preferred by a San Francisco hotel and by a member of a theatrical company here. The young man denies all knowledge of the crimes with which he is charged, and the hospital physicians who have examined him believe they have discovered a remarkable case of either amnesia or alternating personality.

According to reports to the police, Hill left Detroit after a forging check was traced to Salt Lake City, and afterwards to Los Angeles. In Salt Lake City he married a Miss Sweeney, with whom he went to Southern California. When Hill appeared at police headquarters he answered the report's description, which included mention of a withered left arm and a tattoo mark on the right arm.

Hill, who is of good appearance and apparently a man of education and refinement, was known as R. S. Whalen and frequented fashionable hotels here. Physicians who examined him expressed the opinion that his story is not a fabrication.

A crumpled bit of paper found in the bottom of a comb case carried by Hill proved to be an order on a San Francisco Bank for \$250. Hill said he had borrowed the comb case from a man on a train and knew nothing of the order.

The man who breaks himself of a bad habit is never so successful in breaking himself of boasting about it.

## MORGAN FELL IN CHURCH AND SPILLED MONEY

New York, Nov. 20.—J. Pierpont Morgan tripped in church yesterday, and, falling to the floor, spilled the collection plate, which was piled high with money. The banker was uninjured.

Mr. Morgan, who is Senior Warden of St. George's Protestant Episcopal church, was about to pass the plate to Bishop Greer for the offertory benediction, when he stubbed his toe over a misplaced pew cushion on the floor just behind the chancel rail and fell on his hands and knees.

Silver coins, bills and envelopes containing checks, which Mr. Morgan had collected from the congregation, were scattered over a wide area, and the silver plate, which he juggled with desperately for a moment, went rolling away.

R. Fulton Cutting, the Junior Warden; former Mayor Seth Low, a vestryman, and several clergymen were quickly at Mr. Morgan's side, and the banker was soon on his feet again, unhurt, he said, and apparently not at all perturbed; in fact, quite the calmest man on the chancel.

The incident, witnessed by a large congregation, took place in the interval of the special service commemorative of the one hundredth anniversary of the foundation of St. George's parish.

Mr. Morgan probably was the victim of his own gallantry, for the pew cushions, a dozen or more, were placed on the chancel steps at his suggestion to permit many women, who had been standing in the back of the church, to sit down.

## Cotillon For the Wealthy Debutante Will Cost \$25,000

Washington, Nov. 20.—Humming birds brought from Florida and butterflies carried across the continent from California, which will flit around a miniature garden of daisies and rare exotics, is to be the piece de resistance of the \$25,000 Marguerite cotillon to be given for Miss Marguerite Draper, Washington's wealthiest debutante, on December 27.

By reason of \$5,000,000 inherited from her father, the late General William F. Draper, Miss Draper is the wealthiest young unmarried woman in Washington, and it is said that her debutante cotillon on Christmas will surpass in splendor any ever held in Washington.

At the cotillon Miss Draper will wear her priceless string of pearls. This string has been added to year after year by her parents, but the first pearl on it was the gift of Queen Margherita of Italy, whose godchild Miss Draper is and for whom she was named.

## ZANESVILLE WOMAN BURNS TO DEATH

Zanesville, O., Nov. 20.—Miss Helen Bell, aged 40, died late Sunday afternoon after suffering several hours in terrible agony from burns resulting from a gasoline explosion at her home. Miss Bell was cleaning clothes when the gasoline exploded and scattered flames over her clothing. Her sister, Miss Mary Bell, in a room below did not know of the accident until the victim burst into her room enveloped in flames.

Before the fire could be put out every stitch of clothing had been burned from her body. The house took fire and the interior of the second floor was destroyed. Miss Bell lived in agony for several hours.

Miss Bell had for many years been in charge of the stock rooms of the Weller pottery. She was well known in Newark, where she had visited many times.

## Can't Trifle With Nature

Sleeplessness, shaky nerves, stomach trouble, weak heart, headaches, etc., are effects often caused by coffee and tea drinking.

There can be no relief until the cause—if it be coffee or tea—is removed.

Then Nature will repair the damage, and the return to health can be hastened by using well-boiled

## DESCRIBES RAISING OF ALFALFA CROP

During the past few years many farmers around Newark have been experimenting with alfalfa, and it has been from a position of doubtful adaptation to one of recognized value; though its utilization is by no means as extensive as its merits would warrant. In order to obtain more definite knowledge respecting the actual experience of farmers with alfalfa, the Ohio Experiment station, at Wooster, has made a state of wide survey of the crop, and the information thus obtained has been brought together in Circular 112, just issued, and which describes the methods used by farmers in all parts of the state.

## HAS PURCHASED BUSINESS BLOCK AT COLUMBUS, O.

Lawrence A. Weiss, who was formerly engaged in conducting an implement store in this city, under the firm name of Weiss & Thaler, has purchased the Tudorford Pullerton business block, located at 682 North High street, Columbus, for \$125,000, and he has also purchased a vacant lot in Fifteenth avenue, where he expects to erect a residence.

Mr. Weiss, after going out of business in Newark, went to Mt. Vernon, where he purchased the Sausberry implement store, but after conducting it for some time, sold it back to Mr. Sausberry. He has been in the south for some time for the benefit of his wife's health.

## COMPLETE ABANDON IN DIVORCE COLONY

Reno, Nev., Nov. 20.—The very young men of Reno, hardly out of boyhood, gave a dance last week in a small private hall. Shortly inclined women of the divorce colony were invited and about 20 attended.

For complete abandon of conventional ethics and unrestrained conduct between young men and married women it far overshadowed any former similar dance in local history.

Nothing but "Tag," "Grizzly Bear," "Turkey Trot" and "Texas Tommy," so-called dances, were permitted, giving rise to freest of movements with no fear of criticism, the doors being guarded against intruders.

The whisky "punch" was guaranteed to reach the head before midnight and nearly every woman was smoking cigarettes. At the close of hilarities after 2 a. m., autos conveyed some of the participants to a distant roadhouse for a continuance of the fun.
